FORM A

Proposal:

- **Name of the event to be organized:** Industry visit to Sofcon Training B-5,2nd floor, Sec-2 Noida(Uttar Pradesh).
- **Date:** September 06, 2017
- **Time:** 08:30 A.M.- 02:00 P.M.
- **Venue:** Sofcon Training, Noida.
- **Motivation for the activity:** The objective of these visits is to provide hands on experience to the students by providing them exposure of industrial environment and facilitate interaction with the development team of the company. It benefits the students by familiarizing them with the development process followed in these industries and thus preparing them for the environment where they can synchronize class room teaching with real corporate world.
- **Organized by:** Training and Placement Department, RDIAS.

FORM B

Part 1

Aim of the Event:

The aim of the industry visit was to make the students aware about the Software development process at Adroit Info system and to provide them a platform where they can interact with the software development team. Industry visit is a part of academic activity, during which students visit companies and gain knowledge about the process followed by these manufacturing units. It also provides access to students in terms of useful information related to the practical aspects of the course which cannot be visualized in lectures. The ultimate aim of the industrial visit was to give students a concise outlook of the working environment of Adroit Software.

Part 2

Abstract:

A group of 28 Students of MCA - V Semester went for the industrial visit to Sofcon Training (P) Ltd, Noida to give an exposure of the complete developmental process of software in any IT Industry. The visit started with a welcome address by the company official Ms. Jyoti Tyagi followed by the presentation on the certain training courses and “BLUEPRISM” technology. The presentation included a brief introduction about the company, detailed description about the courses offered by them on latest emerging technologies. Presentation also included a brief description about various job opportunities and posts in IT Industry.

Afterwards, the students were taken to Adroid Infosystem who are partners with Sofcon Training to interact with the software development team including Analyst, Developer, Tester. They told about their various products like StudyCRM, SalesCRM and various other ongoing Java and .NET projects. Students interacted with the officials and raised various queries.

Brief about Sofcon Training Pvt Ltd & Adriot Infosystem:

Sofcon India Pvt Ltd is NSDC (National Skill Development Corporation), MSDE (Ministry of Skill Development & Entrepreneurship-Govt. of India) affiliated & funded company. They have received approval from various skill sector councils such as ESSCI (Electronic Sector Skill Council) & IASC (Instrumentation Automation Surveillance & Communication Sector Skill Council). Sofcon India Pvt. Ltd. is knowledge based multi-disciplinary engineering training company, operating from Indian subcontinent since 1995, they follow ISO 9001:2008 standards & committed towards bringing an entire range of services involved in the training, development & employment.

Adroit Infosystem is one of the fast emerging software company founded in 1999. Adroit analyzes, develops and implements business solutions related to the technologies that help Global companies to focus on their business. Being a growing IT firm, they conform to the global standards and work closely with customers. They create and produce user friendly and customized products that define cutting edge technologies. Adroit also provides a wide range of services by leveraging our domain and business expertise.

Part 3

Conclusion

Involving the class at all stages of the industry visit motivates the students and helps them take full advantage of all learning opportunities presented. It also brings a dimension to students' education, which they cannot gain in the classroom as well as helping to make connections between the different aspects of their educational experience. Industry visit provides the students with "dynamic" real time feedback that is useful in the learning process.

Students accumulated hands on experience about the entire developmental process of any software. Students asked various questions like latest technologies in the industry for software development, functioning of Blue Prism, how to develop Android, iOS as well as hybrid apps etc. All the queries were handled in a most satisfactory manner by the company officials. Towards the end, students were provided refreshment. The overall experience was enriching and acquainted the students with application of software development. It may be stated that this Industry visit shall make our students more industrious in the future!

Glimpse of the Industrial Visit

Students patiently listening to Ms. Jyoti Tyagi..!!
