

“Guest Lecture on PHP Programming”

Topic :	Guest Lecture on “PHP Programming” for the students of MCA II and MCA IV by Mr. Sandeep Dahiya, IT Consultant, IINT Rohini.
Date of event :	January 21, 2013
Aim of the Event :	<p>Mr. Sandeep Dahiya holds a number of Microsoft certificates like MCSE(Microsoft Certified System Engineer), MCSA (Microsoft Certified System Administrator, MCTS (Microsoft certified Technology specialist).</p> <p>The session aimed at introducing to students the latest Knowledge of Internet programming, PHP, JavaScript Programming techniques etc. and also their importance in the student’s professional growth in the IT industry.</p>
Event Report in brief :	<p>Mr. Sandeep Dahiya started the session talking about <i>“The Internet Technologies”</i>.</p> <ol style="list-style-type: none"> 1. Sir started the session with Why PHP ? - and According to him, <i>“PHP is an HTML-embedded scripting language. Much of its syntax is borrowed from C, Java and Perl with a couple of unique PHP-specific features thrown in. The goal of the language is to allow web developers to write dynamically generated pages quickly.”</i>. This session was very inspirational, must for every young engineer of IT industry." 2. Second session was a programming session in which, sir explained the programming in JavaScript with a live example of a program. <p>The speakers explained all these points in detail and handled all the queries with expertise. It was a great experience as the seminar was motivational, informative, and interactive in which students participated with full enthusiasm and spirit.</p>
