

“Guest Lecture on Leadership”

Topic :	“Leadership”-By Wing Commander A Siddiqui (Retd), Managing Director, Fosters Placement & Training Services Pvt. Ltd.
Date of event :	March 22,2011
Aim of the Event	Leadership is all about driving home safe till the destination. There is nothing like ‘almost reached’. It is very crucial in life to have a fire within you. This fire is nothing but the willingness to initiate, lead and constantly strive for the best. Keeping in mind the same, a workshop on the above mentioned theme was organised so as to inculcate leadership skills amongst the students MBA II semester.
Description of the event	“Attitude determines a person’s altitude”... The speaker stressed that students should not adopt a casual attitude in life as it is the main reason for a person’s downfall. The speaker made use of significant illustrations and pictures to make the students aware about the concept of Leadership. Leadership is reaching the top and staying there. He emphasised that consistency should be maintained in

performance as well as attitude.

Leadership is targeting the goal, totally focussed. Not having a goal is a sure way to decline and if you want to achieve your maximum potential then make a goal and stay focussed on it just like Arjuna focussed on his target i.e. The Fish's Eye.
