

### Guest lecture on Cloud Computing

<b>Topic :</b>	Guest Lecture on Cloud Computing for all students of MCA by Srivatsan (Shree) Parthasarathy, Senior Director of Deloitte Touche Tohmatsu, India Private Limited.
<b>Date of event :</b>	August 23, 2013
<b>Aim of the Event :</b>	The session aimed to acquaint students about Cloud Computing and its services like PAAS (Platform as a service), SAAS (Software as a service), IAAS (Infrastructure as a service) and Deloitte.
<b>Event Report in brief :</b>	<p>Mr. Parthasarathy has a total 22 years of work experience with expertise in National Technology Risk &amp; Security Service. He also has experience in strategy, design and implementation of solutions for enterprise infrastructure cloud and non-cloud, security, identity management / entitlement, disaster recovery, business continuity, fault tolerance, contingency and crisis management, application / infrastructure integrity, and GRC.</p> <p>Mr. Parthasarathy started the session with a discussion on “Cloud Computing”. After asking some basic questions based on cloud computing from the students, following points were discussed:</p> <ul style="list-style-type: none"> <li>• What is Cloud Computing?</li> <li>• Why are the services providing by cloud computing?</li> <li>• What is the major cloud computing company?</li> <li>• What should be the basic requirements for using cloud?</li> <li>• What is PAAS?</li> <li>• What do you understand by SAAS?</li> <li>• What is IAAS?</li> <li>• Architecture of cloud.</li> <li>• Different studies based on cloud.</li> </ul>

Sir explained Cloud Computing as “A model for delivering IT services” in which resources are retrieved from the internet through web-based tools and applications, rather than a direct connection to a server.” Then, sir added the importance of cloud computing now a day and in future. Sir also had a deep exposure in industries requirements for cloud computing.

After discussing the above points, the speaker told about cloud computing companies and its benefits like Amazon cloud, Google cloud, Facebook cloud etc.

The Session was very informative and technical for the students. The speaker explained all the points in detail and handled all the queries with expertise. It was a great experience as the guest lecture was motivational, informative, and interactive.
