“Guest Lecture on Android SDK 2.2: Mobile Computing”

Topic :	Guest Lecture on “Google Android SDK 2.2”
Date of event :	October 12,2011
Aim of the Event :	A Guest Lecture on Google Android SDK 2.2 was taken by Mr. Tanay Mishra. Talking about his qualifications, he is an MCA in CMC (Computer Maintenance Corporation) Ltd. Noida, he enjoys the designation of a Corporate Trainer. The session aimed at making everyone aware about the latest Operating System in mobile application development industry.
Event Report in brief :	<p>The Guest Lecture was divided into two parts. In the first part Android was discussed and in the second part the speakers shared the details about their company, CMC Ltd.</p> <p>Mr. Tanay Mishra started the session with the fact that “ANDROID IS TOTALLY BASED ON CORE JAVA”. After asking some basic Java questions from the students he started discussing, explaining and relating Java with Android. Following are the points he discussed about Android:</p> <ul style="list-style-type: none"> • What is Android? • Why android used Linux and not any other OS? • How to write, compile, run Android program? • What are Android Components? • Hardware and Software Requirements to use Android for Mobile Application Development. • Android Application Architecture. • Common structure of Android Applications. • Features of Android.

- Advantages of using Android over other competitors.

Also, Mr. Abhishek from CMC Ltd. shared about his company which included:

- Background of Establishment
- Current Expertise
- Customer's
- Projects Done
- Human Feel
- Industry's Perfective
- How to start with CMC Ltd.

It was an interactive session in which the students were once again reminded about the importance of learning the basics related to their subject, for grabbing the best available opportunities in the industry.
