

## Webinar on “Office 365 - A smart way to work!”

<b>Topic :</b>	Office 365 - A smart way to work by Mr. Sheikh Zuber & Mr. Sachin Sharma, Prod. & QC Manager at Shreeyash Ayurveda
<b>Date of event :</b>	February 20, 2013
<b>Aim of the Event :</b>	The aim of event was to make the students aware about Office 365. The session aimed at lending insight to students into the field of Microsoft office 365.
<b>Description of the event :</b>	The speaker started his session from the very beginning talking about what is office 365 and various additional facilities it provides. Office 365 is the Microsoft product and services bundle from Microsoft that includes Microsoft Online Services as well as domain administration. Office 365 also often refers to cloud-based services rather than desktop applications, certain Office 365 subscription plans include a subscription to Office 20XX desktop applications in addition to cloud-based services.

He further discussed that office 365 is available in a number of different plans aimed at different needs and market segments, providing different sets of features at different price points. These include:

- **Office 365 for enterprise:** For businesses with internal or partner-supported IT staff and resources. Add on plans are available for information workers with dedicated PCs and kiosk workers (such as barristers or physicians) who share a PC and need only Web-based access.
- **Office 365 for small business:** Designed for businesses without dedicated IT staff or resources.
- **Office 365 for education:** Designed for schools and a replacement for the Office Live@edu service.
- **Office 365 University:** Designed for students and individual academics.

This webinar was very beneficial and interesting for all of us!!
