

Guest Lecture on “Practical Implementation of Java Eclipse Concepts”

Topic :	Practical Implementation of Java Eclipse Concepts delivered by Mr. Deepanshu Chopra, Technical Team Lead at IBM Gurgaon for the students of MCA III and V
Date of event :	September 23, 2012
Aim of the Event :	The aim of this session was to initiate a discussion on the concepts of programming. The session was arranged to guide students about practical implementation of an application program and a live project in Java Eclipse.
Description of the event :	<p>This practical session was very interactive. The speaker started from core concepts and went up to a small project. He implemented the concepts of strings and Exception Handling and also guided the students to implement live applications in Java.</p> <p>The session ended with the speaker encouraging students to build a strong base in coding of Java Eclipse and he gave an assignment to students to check their knowledge.</p>
