

## Web Report on Extempore for MBA I (II Shift)

<b>Title</b>	CTP Activity on Extempore for the students of MBA I (II Shift)
<b>Date</b>	August 4, 2017 – August 18,2017
<b>Resource Person/Facilitator</b>	Ms. Aarti Sehgal, CTP Coordinator
<b>Summary</b>	<p>An effective speaker can gain the attention of the audience and hold it till the completion of his message. One such method is Extempore that assists students not only in thinking but also in expressing their creative ideas with meticulousness. Extempore is an impromptu speech that is delivered with little or no preparation. Even though it is spontaneous, it requires great effort to deliver an extempore successfully. An extempore activity was conducted for the students of MBA in order to enhance their speaking skills.</p> <p>The students were initially taught about the effective delivery of extempore with important points like capturing audience captivity, usage of right words at the point of delivery and duration of the speech. Students were given topics such as my dream, my role model, mobile phones should be banned inside the classroom, pre and post effects of GST etc. and were asked to think for a minute and then had to speak for not more than one minute which was followed by the instructor feedback. The students were judged on the basis of introduction, content/worthwhile message, presentation &amp; diction, body language and conclusion to their speech.</p>
