

## Web Report on “Technical Placement Paper of General Proficiency”

<b>Topic</b>	Technical Placement Paper for MCA - V
<b>Date of event</b>	October 23, 2017
<b>Resource Person</b>	Ms. Rakhee Chhibber
<b>Summary</b>	<p>Placement tests measure the aptitude of the students which they had already been practicing on in their classes as it is required for their training and placement sessions held by the different companies during campus and pool campus drives.</p> <p>This session was aimed at making the students work on company specified placement papers. A practical paper of WIPRO company was shown to the students and major section of that test paper was explained to them so that they could easily understand the requirement of a company in the form of questions and also they must know the method of answering the questions during technical and interview rounds.</p> <p>The outcome was students' awareness and practice goals on the concepts of the different companies' papers and the interview questions asked during placement test or interview rounds.</p>
