

Website Report on Industrial Visit at “Sofcon Training”

Title	Industry Visit to “Sofcon Training” for the students of MCA
Date	September 06, 2017
Resource Person/Facilitator	Ms. Jyoti Tyagi
Summary	<p>Sofcon Training Institute provides various training courses to students as well as company employees along with NSDC [National Skill Development Center] Affiliated Certifications. They are also partner with Adroit Infosystem which is a software development company established in 1999 and having 230+ customers. Adroit makes both custom mode softwares as well as user specific softwares. Around 28 students visited Sofcon Training Institute to know things practically through interaction, working methods and employment practices.</p> <p>Ms. Jyoti Tyagi, Institute Executive, briefly introduced various training courses offered by Sofcon. She demonstrated the Adroit’s process of software development and mentioned about different job opportunities available in IT industry. An emerging technology “Blue Prism”, an automating business process was also discussed with the students. Next, they were taken to Adroit Infosystem for facilitating interaction with the testers, developers, and analysts. They also gave a description about the courses offered by Sofcon which are currently at a boom in the IT Industry. Then students were introduced by the employees to address their queries.</p>
