Paper Mache Workshop

TITLE	Paper Mache Workshop
Date	Apr 09, 2019 - Apr 09, 2019
Summary	<p>The workshop on “Paper Mache” was organized and conducted by Hobby Club with the aim of inculcating the art and craft skills in the students of BBA and MBA apart from the developing academic acumen.</p> <p>Paper Mache is a composite material consisting of paper pieces or pulp, sometimes reinforced with textiles, bound with an adhesive, such as glue, starch, or wallpaper paste.</p> <p>Two main methods are used to prepare Paper Mache:-</p> <ul style="list-style-type: none"> • The first method makes use of paper strips glued together with adhesive, and the other uses paper pulp obtained by soaking or boiling paper to which glue is then added. With the first method, a form for support is needed on which to glue the paper strips. • With the second method, it is possible to shape the pulp directly inside the desired form. In both methods, reinforcements with wire, chicken wire, lightweight shapes, balloons or textiles may be needed. <p>Vyomika Chhibber, who is a Bachelor in Fashion Designing from Amity University, started workshop by demonstrating how to make a Lamp Shade using Paper Mache technique. She explained the participants about the importance and the various forms of Paper Mache art. The participants with the help of Vyomika Chhibber had hands on experience in creating an art piece using this technique on a balloon, which could be decorated after drying.</p> <p>The workshop was indeed an interactive and knowledgeable session for the students who have an inclination towards art and craft.. The students found the workshop to be really productive and a wonderful learning experience.</p>
