Summary

Hobby Club organized a workshop on digital photography for the students of RDIAS on January 28th, 2020. The resource person, Mr. Virendra Adhikari founder of Vinee Studios, talked about his journey in photography from Canon to where he is at present. He explained how travel photography is not confined to any particular genre of photography like landscape, portraits, people or wildlife, rather its a combination of all. Through his experience, he shared how uniqueness is important with keeping an eye on and not losing the essence of a particular place. He explained how the art of composition & framing are important while capturing an image. Students were encouraged to click on their own mobile cameras. He gave a brief on photography rules through his past works in different places like Hampi, Jaipur-Agra-Fatehpur Sikri, Kashmir, Leh Ladakh, Uttrakhand, etc. The practical usage was also demonstrated very lucidly. The entire session was highly interactive, and all queries by the participants were answered very patiently, making the workshop interactive. The workshop concluded with a group photograph with all the participants.
