### Summary

Prayatna, Social and Heritage Club , RDIAS, organized a Plantation Drive on January 29, 2020 in the garden area in the college premises. Faculty members along with student volunteers participated with full enthusiasm. The volunteers planted saplings at designated spots in the garden area in the college premises. The students were involved in nurturing a tree for the preservation of environment. The objective behind the activity was to instil a sense of responsibility in the students towards the environment and to appreciate the importance of tree plantation and start contributing for a greener planet. The students were guided by the gardener on how to plant the saplings. Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming. Keeping this thought in mind, the activity was successfully conducted leaving volunteers with a smile on their face as they contributed their bit to the environment protection.

### Dossier Image

One of the best gifts we can give future generations' are trees!!!

Let's plant a tree to save our planet!!!

Let's plant seeds of goodness in our society!!!

Team all together!!!
