### Street Play on Environment Conservation on "Save Earth- An Anti-Plastic Movement"

<b>TITLE</b>	Street Play on Environment Conservation on "Save Earth- An Anti-Plastic Movement"
<b>Date</b>	Mar 27, 2019 - Mar 27, 2019
<b>Summary</b>	<p>In the framework of the global commemoration of the 150th birth anniversary of Mahatma Gandhi, the Father of the Indian Nation; Dramatics team of RDIAS "PRATIGYA- A PLEDGE TO CHANGE" in collaboration with Academics Committee performed a street play on "<b>Environment Conservation: Save Earth- An Anti-Plastic Movement</b>", at nearest malls to RDIAS (D Mall and DC Chowk).</p> <p>Plastic pollution is one of the most important environmental problems that we face today. It impacts the environment, our health and wellbeing. We have all contributed to this problem – mostly unknowingly – and we must work to reduce and ultimately to end Plastic Pollution. Plastic pollution is a huge environment and health issue as it harms us in more than one way such as it clogs drains, causes visual pollution and proves fatal for stray animals. So, with the "<b>Environment Conservation: Save Earth- An Anti-Plastic Movement</b>", the theme of the play, the students of team Pratigya worked towards encouraging the public with the awareness and action for the protection of our environment from plastic pollution.</p> <p>The team reached the venue on time i.e. at 10:00 am and performed the play at D Mall followed by DC Chowk till 2:00 pm. The play helped the team to spread awareness about the harmful use of plastic to the public. The crowd seemed to be motivated and interested in knowing more about the plastic usage and also appreciated the team for their brilliant work where students not only made the public aware about the harmful effects of plastic but also informed them about the alternatives and ways by which they could replace the plastic and save the planet.</p>
