

### nCovid Awareness & Prevention Certification Course

<b>TITLE</b>	nCovid Awareness & Prevention Certification Course
<b>Date</b>	Apr 20, 2020 - May 05, 2020
<b>Summary</b>	<p>Social and Heritage Club, RDIAS, organized an event : Covid 19 Awareness and Prevention Certification Programme for the students and staff members of RDIAS. The aim of organizing this event was to make the students and staff members understand the importance of preventing themselves from this deadly disease and be aware of correct and authentic information rather than being a prey to baseless rumors being spread via social media.</p> <p>Apollo hospitals started this free of cost certification for its valuable citizens of the country wherein interested people need to register on the website, listen to few audio and video lectures, attempt a quiz and then get certificate for the same. These lectures were extremely informative and provided the authentic information pertaining to this disease. As sincere citizens of the country, RDIAS faculty members and students participated in the certification course run by Apollo Hospital. Total number of registrations on portal were 51, out of which 32 (12 faculty members and 20 students) completed the certification course.</p> <p>The participants displayed their sincerity in being well informed and taking timely measure not only to protect themselves, their family and community but also being cautious in not sharing false information. The students and staff members were appreciative of the event and shared their input regarding the usefulness of such certification which itself speaks that prevention is better than cure. The certificates of all the students and staff members who earned this certification was displayed on the Facebook page of RDIAS.</p>
