### E-FDP on Basics of Research, Parametric & Non Parametric Statistics, Regression & EFA

<b>TITLE</b>	E-FDP on Basics of Research, Parametric & Non Parametric Statistics, Regression & EFA
<b>Date</b>	Jun 01, 2020 - Jun 05, 2020
<b>Summary</b>	<p>The E-FDP was for the keen researchers to take benefit of lockdown. The topics covered were selected to keep in mind the systematic process of research. The coverage of E-FDP started from introduction of research and also covered some advanced topics like regression and Exploratory Factor Analysis. Basics of research and software to be used were discussed during day 1 and day 2. Parametric and non-parametric statistics was discussed during Day3 and Day 4. Day 5 was for regression and Exploratory Factor Analysis. The objectives of E-FDP were to encourage the research orientation of keen researchers in the discipline of Finance, Marketing HRM and General Management and to make participants understand details about steps and statistics involved in simple research as well as some advanced levels of research using suitable software. A mix of pedagogical tools was demonstrated to the participants. All sessions of E-FDP were taken through Google meet where discussions, presentations and experiential exercises have been done. A hand on experience was given on SPSS software (Trial Version used). During the E-FDP participants demonstrated the analysis with suitable data and examples. On day to day basis participants were sent the Google meet id to join the session and all sessions were conducted smoothly. Total registered participants were 55 and attended E-FDP regularly. The certificates will only be issued only to those participants meeting attendance criteria. The sessions held during June 1-5, 2020. The timing for the sessions was 2:00 to 4:00 PM.</p> <p>The participants discussed many things related to research and topics of E-FDP. This E-FDP was interactive and as resource person I also enjoyed discussion with researchers.</p>
