

**Title:** Analysis with EFA and CFA

**Date:** January 18-22, 2021

**Resource person:** Dr. Anil Kumar Goyal, Professor, RDIAS, Delhi

**About:** Research is a scientific method of observation to gather data. The collected data becomes relevant after its analysis and interpretation. There are various tools and techniques available to analyse the data and the use of tool depends on data and objective of research. This FDP will facilitate the researchers on WHY and WHEN to use this particular technique of EFA and CFA, HOW to analyse the data with these techniques, HOW to interpret the results. The more emphasis will be on concept clarity and implication through practical exercises.

**Registration Start Date:** December 26, 2020

**Registration Last Date:** January 17, 2021
