

Title : MDP on Unleash the Unexplored – Ignite The Inner Change with NLP

Date : May 22, 2021

Resource person : Mr. Deepak Chhabra, Assistant Professor, RDIAS, Delhi

About :

IMPORTANCE

As Human Beings we unknowingly trap ourselves in the inner complex of life and succumb to the limiting belief of our own thoughts. Interestingly, there's more to the Human Potential than what we can possibly think of.

There won't be any right moment. The moment you decide to change is THE right moment.

So if this sounds like a plan and if you are pretty serious about wanting to make the most of your life and seeing yourself living it up in a meaningful and purposeful way, then this workshop certainly expects participants like you.

WHO should attend?

Corporate Executives, Managers, People working towards Social causes, Professionals, Entrepreneurs and certainly anyone who is willing to make his/her story better!

WHY one should attend?

We live in a world that's changing rapidly. To be on the right track, not just takes skills and expertise, but a deeper conscience towards the inner consciousness.

This doesn't comes naturally to all of us, but a guided approach can actually help you in actualising the much needed change you are working towards.

This Workshop in a structured way will provide you with insights towards unleashing the unexplored and igniting the inner change by way of NLP (Nero-Linguistic Programming) practices towards programming the unconscious mind.
